

THE DPA DECODED

GET DATA PROTECTION RIGHT

WHAT IS THIS COURSE?

The DPA 2018 is the engine that drives GDPR's high-level principles but it's much more complicated. It applies GDPR to areas that it wouldn't otherwise cover, sets out exemptions from normal practice, and includes safeguards for using special categories data. It also introduces rules for using criminal records and a DP regime for law enforcement bodies. **You can't do GDPR without the DPA.**

WHY THIS COURSE?

The Data Protection Act 2018 is a monster – 339 pages of dense, cross-referenced pages written in the worst kind of legalese. Even the contents are 12 pages long. So what hope for the average DPO or DP lead who simply wants to know what they're expected to do? This course decodes and demystifies the DPA, setting out clearly and simply what jobs the DPA is designed to do, and how it achieves them. Although it might seem impenetrable, it's quite possible to get to grips with the DPA, and this course will help. Developed and delivered by someone who has monitored the progress of the DPA from its first draft, and with nearly 20 years experience of Data Protection overall, this course is detailed but practical, a clear guide to what the DPA 2018 requires without getting lost in the section numbers.

FIVE THINGS THAT YOU GET ON THIS COURSE:

- 1) Detailed guide to the practical implications of the DPA 2018
- 2) What each part means and how it works
- 3) Myth-busting and honest, down-to-earth advice
- 4) Space to ask questions about specific concerns and issues
- 5) Plain English guide to the GDPR exemptions take away
